

Datamatrix

They are unique

Datamatrix

Delacroix-Chevalier offers a cost-effective solution to prepare the future of instruments management :

Unique laser technology and Landanger multi-line font allows Delacroix-Chevalier to present the VERY FIRST operational and long lasting Datamatrix system.

Use of an international EAN128 coding system allows Landanger Datamatrix to be compatible with most leading traceability softwares and reading scanners currently available.

This coding is standard on all of our products at no additional cost to customers.

Maintenance of efficient and life reliable Datamatrix system is requesting a special expertise. We can guarantee you a life long traceability on your Delacroix-Chevalier surgical instrument identification code.

Make them personal

Laser Customization

Wish to personalize each surgeon's instrumentation set or assign an instrument to a particular surgical department ?

We offer a customizable laser marking, in addition to our standard marking pattern.

For inquiries, please contact your nearest official Delacroix-Chevalier distributor.
